Data Table

Stakeholder quotes retrieved from Media Coverage - Cisco

Stakeholder Name	Role	Stakeholder quote related to Cisco	Translation	Sentiment
Carl Solder	Chief Technology Officer at ANZ, former Vice-President of Engineering at Cisco	"AI is software that intends to mimic human intelligence."	N.A.	Positive
Carl Solder	Australian Chief Technology Officer at Cisco	"I think the reality is that they started to appreciate the work and effort involved in getting all those building blocks squared away, and the strategy, infrastructure data governance, talent and culture."	N.A.	Neutral
Chuck Robbins	Cisco's CEO	"It's very technical. We're going to enable our customers to just use English language to describe what security capabilities they would like â€¦ and then we will translate that into a policy that they would review."	N.A.	Positive
Corien Vermaak	Cisco ANZ director of cybersecurity	"As we do security awareness training, we now need to focus on that narrative on AI as well."	N.A.	Positive
Corien Vermaak	Director of Cybersecurity at Cisco ANZ	"As we do security awareness training, we now need to focus on that narrative on AI as well."	N.A.	Positive
Dr Jennifer Loh	Professor in management at the University of Canberra	"It opens up that discussion in terms of, 'this task does not need me to be on site, can I maybe work from home half a day? I'll take care of everything, I can use the computer'," she said.	N.A.	Positive
Dr Liz Allen	Demographer from the Australian National University	"At the end of the day, data tends not to lie and the data is very clear - Australian workers want and need flexibility," Dr Allen said.	N.A.	Positive
Eric Marais	Investment specialist	"Cisco is a business that has actually been extremely successful. It's continued to grow its revenue and its profits, but it has yet to recoup its peak price 25 years later."	N.A.	Negative

Stakeholder Name	Role	Stakeholder quote related to Cisco	Translation	Sentiment
Eric Voit	Inventor	"CISCO TECHNOLOGY Inc., United States of America, has filed an application (2022246728) on March 29, 2022, for 'VERIFYING TRUST POSTURES OF HETEROGENEOUS CONFIDENTIAL COMPUTING CLUSTERS.'"	N.A.	Positive
Flora Salim	Professor, Cisco Chair of Digital Transport & AI	"Flora Salim receives funding from Australian Research Council and Cisco."	N.A.	Positive
Gary Steele	Executive Vice-President at Cisco	"With the AI assistance that we've launched, you can use English language to automatically generate that proprietary language. You can get outcomes without having all the advanced knowledge."	N.A.	Positive
Jensen Huang	CEO of Nvidia	"We're going to do our best to compete in that marketplace and succeed in the marketplace."	N.A.	Neutral
Kamyar Karimi	IoT Researcher	"This technology represents a major shift towards data-driven, sustainable agriculture where AI and IoT optimise every drop of water for maximum farming efficiency."	N.A.	Positive
Luke Malan	Managing Director of Aglantis	"With growing pressures on profitability, it's more imperative to know what you're doing and how you can do it better. This flips conventional thinking on its head and opens the doorway to new possibilities."	N.A.	Positive
Mark Castelanelli	Sugarcane Farmer	"There's endless opportunity and the power of computing is just getting smarter."	N.A.	Positive
Professor Wei Xiang	Cisco Research Chair and Director of La Trobe University's Cisco Centre for AI	"Now we've proven the technology, the next step is to add additional features to improve productivity and crop yields through leveraging cutting-edge AI technology."	N.A.	Positive

Notes

- Quotes have been deduplicated and sorted alphabetically by stakeholder name
- Translations are provided where the original quote is not in English
- Sentiment analysis is based on the context and content of each quote
